

Products and Services

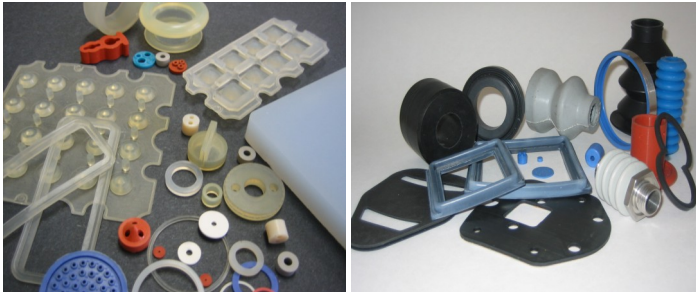

With over 26 years of custom rubber molding experience, LMP is your source for high quality, precision molded products. Our services include compression and transfer molding of high performance elastomers such as Silicone, Fluorosilicone, Conductive Elastomers, Viton®, Nitrile, Neoprene and Ethylene Propylene.

LMP services such markets as Aerospace, Semiconductor, Industrial, Automotive and Biomedical Industries. We can manufacture your first proto-type run as well as large scale production output.

Products

Custom Molded Shapes

- Lip Seals
- Bladders
- Bellows
- Non-Metallic Gaskets

Non-Standard O-Rings

- Prototype Single Cavity Molds
- High Volume, Multi Cavity Molds
- Very Small and Very Large Sizes

Services

- Design and Material Selection
- High Precision Mold Making
- Compression and Transfer Molded Rubber Parts
- Rubber to Metal Bonding
- Rubber to Teflon Bonding

Molding Presses:

Press sizes from
5 ton to 280 ton

Die Cutting:

Custom Gaskets
